PETITION FOR RULE MAKING

Conway Broadcasting ("Conway") hereby respectfully submits the instant Petition for Rule Making to amend the Commission's FM Table of Allotments to add Channel 242C1 at Billings, Montana as its ninth FM allotment. In support whereof, the following is shown:

1. Conway Broadcasting is in the business of building and operating radio stations and desires to provide an additional local service to Billings and the surrounding area.
2. As demonstrated in the Engineering Exhibit attached hereto, the instant Petition proposal is in full compliance with the FCC rules at 47 CFR 73.207 and the proposed allocation can be made without affecting the allocation of any other station.
3. Billings, Montana has several commercial FM allotments and has previously been determined to qualify as a community for allocation purposes.
4. The proposed reference point is 45° 45' 53"N - 108° 27' 15"W. This reference point is in full compliance with 47 CFR 73.207 and other requirements.
5. Since the proposed allocation would provide Billings with additional wide-area coverage service, and contribute to the fair and efficient distribution of FM allocations, the instant

proposal would be in the public interest. Conway will immediately file the required FCC form 301 for authority to construct the Channel 242C1 facility upon grant of this Petition.

WHEREFORE, the foregoing considered, Conway respectfully requests that the Commission GRANT the instant petition, and AMEND the FM Table of Allotments as shown below.

<u>Community</u>	<u>Present</u>	<u>Proposed</u>
Billings, SD	227C1, 231C, 246C1, 253C1, 275C1, 279C1, 286A, 298C	227C1, 231C, 242C1, 246C1, 253C1, 275C1, 279C1, 286A, 298C

Respectfully submitted,

Conway Broadcasting

The information contained herein is true and correct to the best of my knowledge, information, and belief, and the intent of submission is to establish the new local FM broadcast service as outlined in the Petition.

**ENGINEERING EXHIBIT FOR
CONWAY BROADCASTING
BILLINGS, MONTANA**

This engineering exhibit was prepared in support of a Petition for Rulemaking being filed by Conway Broadcasting ("Conway") to amend 47 CFR 73.202(b) as follows:

Conway proposes that channel 242C1 be allocated to Billings, Montana as its ninth FM commercial broadcast service. Conway will file FCC form 301 for authority to construct on the channel when allocated.

The proposed channel allocation can be made in full compliance with FCC rules from a reference point approximately 4 kilometers southeast from the center of Billings. This site was chosen since there are other towers in the area. There are no meaningful site restrictions for this allocation. The NAD 27 geographic coordinates of this point are:

45° 55' 53"N - 108° 27' 15"W

The attached tabulations illustrate the spacings for the 242C1 allocation at Billings, showing full compliance with the relevant provisions of 47 CFR 73.207.

Community of License

Billings, Montana

Present

227C1, 231C,
246C1, 253C1,
275C1, 279C1

227C1, 231C,
242C1, 246C1,
253C1, 275C1
279C1, 286A
298C

It is respectfully submitted that the allotment of channel 242C1 as outlined herein is in the public interest and will result in a fair and efficient distribution of allocations, provide Billings, Montana and the surrounding area with its ninth FM commercial broadcast service, thus expanding broadcast service to the public.

This engineering exhibit was prepared by me and is true and correct to the best of my knowledge and belief.
